

Have you or someone you love been diagnosed with Alzheimer's Disease?

Clinical Trials of Texas, Inc. is participating in a nationwide study evaluating the effects of a once-a-day nutritional drink on individuals with mild-to-moderate Alzheimer's Disease.

What is the purpose of this study?

The purpose of this study is to test whether a nutritional drink is effective and safe for patients with Alzheimer's Disease.

What will you be asked to do?

You will be asked to consume a nutritional drink once every day for a period of 6 months. During this time, you will be regularly monitored and tested by study staff for any changes in your memory and thinking abilities.

To be eligible to participate in this study, you must be:

- ✓ Clinically diagnosed with mild-to-moderate Alzheimer's Disease
- ✓ Taking an FDA approved medication for Alzheimer's Disease (Aricept, Exelon, Razadyne, and/or Namenda) for the past 4 months
- ✓ 50 years of age or older
- ✓ Not previously diagnosed with vascular dementia, Huntington's Disease, Parkinson's Disease, or seizures
- ✓ Not living in a nursing home
- ✓ Able to have a caregiver or study partner be with you during all study visits and telephone calls
