

DIVERTICULITIS

It hurts
just
thinking
about
another
attack.

A research study is underway to explore an investigational drug aimed at limiting the recurrence of diverticulitis attacks.

You may be eligible to join this study if you:

- Have been diagnosed with diverticulitis
- Have had at least one attack in the past 2 years and have gotten better without surgery
- Are at least 18 years old

Study participants will receive all study medication, study-related physical exams, and laboratory services at no charge.

All participants will be monitored by a medical team, including a nurse or study coordinator and a study doctor.

Help us find a way to limit the recurrence of diverticulitis attacks. Ask your doctor if this study might be right for you.

Call (210) 949-0122 for more information.
