

# Early Phase Capabilities

---

## Cardiovascular

- Cardiac Holter Monitoring
- Treadmill
- Ambulatory Blood Pressure Monitoring (ABPM)
- Endothelial Function Testing
  - \*EndoPat

## Metabolic Diseases

- Visual Analog Scales (VAS)
- 24-Hour Glucose Monitoring
- YSI Monitoring
- Continuous Glucose Monitoring (CGM)
- Oral Glucose Tolerance Testing
- Meal Tolerance Testing
- Intravenous Glucose Tolerance Testing
- Insulin Tolerance Testing
- Computational Anthropometric Ratios (hip, waist, neck)
- Universal Eating Monitor (UEM)
- Indirect Calorimetry
- De Novo Lipogenesis Testing (Fructose challenge)
- Biopsy (liver, muscle, adipose)
- Implantable Devices
- Fundoscopy
- Pulmonary Function Testing
- Imaging
  - \*MRI
  - \*Proton Density Fat Fraction (PDFF)
  - \*Ultrasonography
  - \*Transient Elastography (FibroScan)
  - \*CT

## Sedation

- Pupillometry

## Pain/Analgesia

- Visual Analog Scales (VAS)
- Capsaicin Induced Allodynia
  - \*Heat
  - \*Cotton Swab

## Blister Induction Models

- Heat
- Suction
- Cantharidin
- UV

## Licensed Pharmacist

## Pharmacy Hood for Drug Mixing/ Compounding

---

## Clinical Trials of Texas, Inc.
